Overview

This dashboard gives a clear picture of what's on Prime Video up to 2021. It covers everything from content types and genres to ratings, release trends, and where the shows and movies come from.

- Ratings by Total Shows
- Genres by Total Shows
- Total Shows by Country
- Total Shows by Release Year
- Movies and TV Shows

Data Visualization

- Art of turning raw data into visual format like graphs, charts, maps and dashboards to make it easy to analyse data to derive insights.
- Helps to see Patterns and Trends quickly.
- It makes complex data understandable to Non- Tech Audience also.
- Helps in decision making with clear visuals.
- It makes easy to tell story of datasets instead of numbers alone.

Amazon Prime Videos

Maps that are used in this Dashboard are:-

- Bar Graphs (Rating)
- Bar Graph(genres)
- Field Map
- Donut Chart
- Area Chart
